2. Added READ 180 to the list of available assessments for Viewpoint loading. READ 180 results will only show in the Student Summary and not in reports as there are no proficiency scales associated with this test.

3. Added new MAP tests labeled as v3 to a test name for loading to Viewpoint.

4. Updated the Viewpoint Reports Summary Help Document. The help document is available here. All other help docs and training videos are available on the Resources Tab.
