

4.16.14.0 - 10/26/2022

Added

- Added "Implementation Date" column to **Student Documents Explorer** report.
- Added debug level logging to SSO logins.
- Added debug level logging to ParentVUE logins.
- Added ImplementationDate to student plans import into Student Documents.

Changed

- Added Unique Constraint to Role Permission records.
- Updated Dashboard State Accountability Charts to 2021-2022.
- Updated At-A-Glance Reports to 2021-2022.
- Renamed FAST "Total Words Correct" column in reports to "Total Words Read".

Fixed

- Fixed calculation error on Achievement Gap Dashboards that would include assessment scores if the student was ever part of that demographic.
- Cleaned up duplication of role permission records.
- Fixed issue in Student Scores Explorer where a strand outline selection would cause a SQL error.
- Fixed **Performance Scale Recap** not properly handling large ids.
- Fixed **Venn Breakdown** clickthrough not working when a rule contained angle brackets.
