

4.16.17.0 - 04/13/2023

Added

- Added new **FAST SAEBRS** and **mySAEBRS** scale banding sets.
- Update to MCA loads to allow 2023 preliminary data to load.
- Add new templates for 2022-2023 changes to EasyCBM
- Add new shades of pink and purple colors in prep for changes to FAST Growth reporting
- New 348 column template for PSAT for 2022-2023 changes

Fixed

- Fixed clickthrough's not working when a report's parameter includes a less than symbol.
- Fixed student longitudinal reports rendering incorrectly due to duplicated scales for FAST, AimsWebPlus 2019 and NDSA 2012.
- Fixed **Subject/Category** dropdown filters from crashing when selecting **Common Assessment** when more than 2200 **Common Assessment** outlines exist for said site.
- Fixed **Student Details - FAST Longitudinal** not displaying the latest scores, if the student had more than 14 instances of that FAST assessment.
- Fixed PDF Printing from crashing if a school name contains a Microsoft M-Dash.
- Fix SQL error in easyCBM load
- Fixed Test Growth reports displaying multiple of the same scale in different colors when a student took multiple FAST assessments in the same season.
