Release Notes [4.16.24.0]

Added:

- Added missing AchievementColumn records for At-A-Glance Reports that were supposed to be added in 4.16.21.2
- Recalculate Achievement and Demographic Rollup with new AchievementColumn records
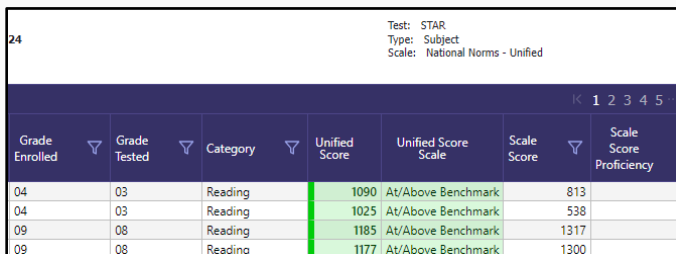

- Add Rapid Guessing Percentage (Impact) to MAP Validity report

Changed:

- Updated STAR so "Unified Score" is active in PerformanceSet and primary in TestScoreType instead of "Scale Score".

- Multiple improvements to table UI and functionality.
- Updated the **UserLogin** field be 100 characters long.

Removed:

- Reduce clutter in config screens for Absence and Discipline data by removing unused ReferenceParameter records.

Fixed:

- Fix various small aimsWebPlus issues with score display.
- Fix floating table column alignment issues.
- Fixed error in Student Detail PDF Printing when filtering by more than one subject.
- Fixed error in Batch Printing when filtering by more than one subject.
- Fixed error in Batch Printing large batch processing immediately failing.
- Ensure that NDSA strand level data appears correctly in reports and Student Detail
- Align STAR Early Literacy Percentile Ranks to current Unified norms
- Fill in newly added Unified Score benchmarks for early grades for STAR
- Ensure all MN sites have the MN Predictor Unified benchmarks
- Ensure that all sites display the ACT and SAT benchmarks for STAR in Student Detail and the Test Performance report
