

Release Notes [4.16.25.2]

Added:

- Improvements to the **Test Growth Details** report
 - Score and growth score columns display with color coding from selected scale

Test Growth Details
MN Demo District, 2023 - 2024
Status: All Students

Test: FAST - English Only Type: Subject Category: Adaptive Reading

Start Season: Fall 2022 End Season: Spring 2023

Compared Score Type: Scale Score Scale: MN Predictor Scales Test Status: Tested (Both Seasons)

- CogAT Updates to load newest file format from Riverside Insights
- FAST Test Additions
 - Updated scale ranges for seasonal scores for 2023-2024 (i.e. Scale Score, Median WRC/Minute, Composite Score, etc)
 - Remove old and unused performance sets. Ranges/color coding are always current to the time of test and there is no “Current Norms” vs “Time of Test Norms” differentiation
Make sure your site is using the correct set for each score type in [Config Tools > Test Scale Maintenance](#)

- FAST Growth Percentile benchmarks now match FASTBridge’s benchmark-based percentile bands and are pink and purple to match
 - (Flat: 0-15, Moderate: 16-40, Typical: 41-75, Aggressive: 76-100)
 - National Growth Percentile, District Growth Percentile, School Growth Percentile, Growth Percentile by Start Score
 - Scale labels include the word “Benchmarks” to prevent confusion

Selection

Aggressive Growth	447	21.2%
Typical Growth	853	40.4%
Moderate Growth	561	26.5%
Flat Growth	252	11.9%
Total	2,113	100.0%

- Assorted other minor fixes to FAST data display
- STAR Report Additions
 - The STAR Unified Score is now the primary score in all reports that utilize STAR data for Early Literacy, Mathematics and Reading
 - STAR CBM data is now fully supported in all reports that can support it
 - See below for a breakdown:

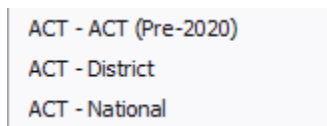

Report Name	STAR	STAR CBM
Dual Banding Report	X	X

Test Statistics Detail	X	X

- STAR Scale Score has been removed from report filter options. It will still display in **Student Detail** and as a column in most explorer type reports, as long as it is still provided by Renaissance.
- Additional options for reporting with the ACT Benchmark and SAT Benchmark score types

Changed:

- Updated display name of legacy (pre-2020) ACT scores based on user feedback. Scores from prior to 2020 will display as ACT - ACT (Pre-2020) rather than ACT - ACT.

- Fix issue with **State Accountability** tab missing data due to internal ID mismatch for grade levels
- (MN) Yearly updates to WETL loading for preliminary testing of MCA, MTAS and ACCESS2 data

Fixed:

- Fixed bug in **Test Growth by Percentile** causing the wrong color to appear for the 0-10 percentile block
- Fixed issue preventing grade 2 Spelling scores from loading for aimsWebPlus data.
- Fix issue in WETL load for TS Gold preventing errors from displaying during error checking process
- Optimized nightly Absence data load to improve load times by many hours
- Fix issue where "Advanced"/"Exceeds"/"College Pathway" Benchmark/Risk Level scores were not being loaded for the FAST Tests of CBM Reading, Adaptive Reading, Adaptive Math, Early Reading and Early Math.
