Release Notes [4.17.6.0]

Added

- **Test Growth Details** - Added FAST CBMMATH Automaticity support.
- **Test Growth Details** - Added error message when no "Compared Score Type" is selected.

Changed

- **Admin** - Require Email Addresses for User Addition and Modification.

- **Assessments** - Updated ELLMn2 format and edit sprocs to support WETL loads of the new 2024 Alt ACCESS test.

Fixed

- **Ad Hoc Reports** - Fixed Comparison/Ad Hoc Reports not working with reports that have alternate filtering options that include a date.
- **FAST** - Fixed issue with WETL load for FAST Early Reading/Early Math scores where strand scores sometimes failed to load if they did not make up a composite score.
- **General** - Fixed report column filters disappearing when filter was on the left sixth of the report screen.
- **General** - Many potential security fixes.
- **Minnesota** - Updated Ethnicity Filters in State Accountability to use Federal Ethnicity.
- **Nebraska** - Fixed issue with NSCAS Growth load in WETL, added templates to load 2024 data
- **Nebraska Growth** - Added new NE "State Growth" MAP test names to `TestOutlineSource` to continue loading data.
- **Performance Scale Maintenance** - Fixed Performance Scale Maintenance not canceling scale deletion after clicking "Cancel" when asked to confirm Performance Scale deletion.
- **STAR** - Implemented new file format for STAR CBM, allowing deactivated scores to be removed from Viewpoint.
